### 1. General

1.1 Uffington Parish Council (“the Council”) is funded by precept, raised from the residents of Uffington, and therefore has only limited funds available to assist organisations working for the benefit of the community.

1.2 In addition, the Council may derive income from other sources. These may include the contributions from S106 agreements or Community Infrastructure Levy (CIL) agreements, as a result of development in the village, or from grants made to the Council for village projects. These are known collectively as “Other Sources of Income”.

1.3 Subject to funds being available, the Council is committed to providing assistance and support to local groups which are set up to promote and improve community life for local residents. The Council’s financial support is provided by way of **Grants** (for organisations / causes located in Uffington) or **Donations** (for organisations / causes which are not located in the village, but which benefit residents of Uffington). Generally, the Council will look more favourably on organisations / causes located in Uffington whose activities are provided for the general benefit of residents in Uffington, rather than elsewhere.

1.4 This policy will reflect the amount of money set aside each year for Grants and Donations. A realistic figure for Grants and Donations funded from the precept will be included in the Council’s annual budget for the following year and this may vary from year to year. Funds from Other Sources of Income will be held and accounted for in the Council’s accounts.

### 2. Aims of the Council’s grants and donations policy

2.1 The Council provides funding to support the following aims:

- 2.1.1 To enable residents to participate in voluntary groups and activities.
- 2.1.2 To help the parish’s voluntary / community groups to improve their effectiveness.
- 2.1.3 To assist in the provision of services needed by residents provided by the voluntary sector.
- 2.1.4 To support organisations which meet the needs of people experiencing social and economic difficulties.
- 2.1.5 To encourage a degree of self-sufficiency by groups by encouraging them to part-fund projects wherever possible.
- 2.1.6 To ensure that there is equality of access and opportunity for all residents of Uffington to the services it provides and funds.
- 2.1.7 To improve or enhance the local environment.

4.1.2 For grants out of Income from Other Sources (e.g., S106 and CIL contributions). ## GRANTS AND DONATIONS POLICY

4.2 All funding requests must use the application form, attached, and applicants should provide all information requested. Application forms which are not properly completed may be returned.

4.3 Applications, which will inevitably be dissimilar in content, are judged against a range of criteria set by the Council, and which may be amended from time to time, so that they can be assessed consistently, rationally and objectively. The criteria are designed to establish a general indication of need but are not exclusive and can be applied flexibly. The Council may refer to any community plans when considering applications.

### **5. Principles for the evaluation of applications**

5.1 The Council will apply the following principles in evaluating all applications

5.1.1 Promoting Partnerships. Our policy on deciding community grants and donations is based on the principle of promoting the development of partnerships which encourage and enable local community organisations to deliver local projects for the benefits of the residents of the Parish.

5.1.2 Value for Money. In order to demonstrate that value for money is being achieved, detailed bids for projects etc should be accompanied by at least two quotations, if over £500 is requested; if this is not possible, please state why. If the applicant's recommendation is not to proceed with the cheapest quotation, a full explanation should be provided.

5.1.3 Impact. Applications for grants and donations will be judged on the level of need / merit / contribution / impact to the community in the Parish, or the benefit to the environment of Uffington and / or the immediate local area.

5.1.4 Accountability. Any assistance given to projects will be subject to reporting to and monitoring by the Council and subsequent evaluation of the outcome of the grant.

5.1.5 Impartiality. We welcome applications from all sectors of the community including small or newly formed groups.

5.1.6 Track Record. We will look for evidence of a well-managed group including previous experience and track record, financial sustainability and viability of group and / or project.

5.1.7 Match Funding. Successful applications may not receive 100% of the amount requested. On occasions, particularly for larger projects, we will look for evidence that funding has also been sought from other sources and we will take into consideration the level of match funding available. Applicants may be asked to prove that the remainder of the project can be funded before the funds are allocated.

5.1.8 Projects (not Ongoing Support). Organisations should not make a presumption that funding will continue on a year to year basis.

5.2 All Grants requests must be accompanied by the grantee's latest full set of approved accounts.

5.3 Additional principles applicable to projects funded from Other Sources of Income:

5.3.1 Capital Project Funding. Only capital projects will be considered for applications to be funded from other sources of income such as contributions from S106 agreements or CIL agreements.

5.4 Financial Control. Allocated funds will remain in the Council's bank account, ring fenced to the application, until the project, or a designated phase, is complete. Phased funding may be
